

Citizens Concerned for Michipicoten Bay

Dear Friend:

Citizens Concerned for Michipicoten Bay (CCMB) is a grass roots stewardship organization that was formed in response to a Detroit-based company's plans to develop 2.5 kilometres of Lake Superior shoreline at Michipicoten Bay into a quarry. CCMB wants to ensure that any possible quarry on the 1000 acre property, at the very least, be far removed from the shores of Lake Superior, and if developed at all, adhere to rigorous environmental standards and best practices.

A study commissioned by the Ontario Ministry of Northern Development and Mines identifies fifteen other potential quarry sites along the north shore of Lake Superior (see map at right). The development of a quarry at Michipicoten would set a precedent for aggregate extraction all along this extraordinary shoreline and encourage other operations to move in.

To take on a multi-million dollar American corporation is no mean task and it is also very costly, certainly more than we as individuals can afford. At the moment we need to generate approximately \$100,000+.

As you have probably guessed, this is where we hope you will come in.

After a rigorous application process, CCMB was accepted under the umbrella of ENVIRONMENTAL DEFENCE CANADA, which may accept donations and issue tax receipts on our behalf.

We do have a website which is currently under reconstruction (www.ccmb.ca) and you can find a summary there of our supporters and activities-to-date.

A donation of any amount would be most helpful and EQUALLY IMPORTANT would be your help in FORWARDING THIS APPEAL TO OTHERS. Therein lies the success of this campaign.

Thanks so much for your help. You can't imagine how much we would appreciate your support.
